

Service Information

VoIPcloud provides SIP trunk services that allow businesses to connect their on-premise phone system via the internet to make and receive calls.

Included features

A full feature set is included. VoIPcloud's SIP trunk service is part of the Hosted PBX system, this enables unique features to be configured. We constantly expand our feature set, view the complete feature list [here](#). Customers have access to an online portal where they can configure their SIP trunk service including automatic failover to alternative destinations and check usage information.

Limitations

- Service requires an active internet connection and an on-premise telephone system to be supplied by you (usually your existing legacy system)
- SIP trunk service quality is dependent on the quality and stability of your internet connection.
- VoIPcloud does not provide access to Premium call services such as 1900 numbers.
- Caller ID cannot be guaranteed to international destinations.

early termination fees, and no set-up fees with no requirement to bundle anything with this service.

International destinations

International rates and free calls to 50+ countries are subject to change without notice and are accessible via our customer portal or on request from our support team. International rates are charged in 60-second increments. We block international destinations that have been identified as high-risk. If you require access to a particular high-risk destination, please contact support. A list of high-risk destinations can be found [here](#).

Billing information

Services are supplied on a prepaid basis by default. New monthly subscription services are charged to the account balance on a pro-

pro rata basis from the service start date till the end of the month. After this, your monthly subscription is charged at the start of each month. Call charges that are not included in or unlimited are charged to the account balance at the end of each call, making it possible for the account balance to go negative or below the assigned credit limit. Services unsubscribed during a billing period are non-refundable. We recommend setting up automatic payments via our customer portal. Pre-paid billing requires you to maintain a positive account balance at all times, the service will be restricted automatically if you fail to maintain a positive account balance. Post-paid billing is available on request at the discretion of
